DISTRICT INSTRUCTIONAL/MEDIA/LIBRARY MATERIALS**

The Milan C-2 School District Board of Education has the ultimate responsibility for establishing the curriculum and for purchasing instructional, media and library materials to be used by the district. However, the Board recognizes that its authority to remove or censor materials because of ideological or religious content may be limited pursuant to state and federal law.

The Board encourages community input and comments regarding the district's instructional, media and library materials and directs the district staff to answer all questions regarding the selection of the materials. The superintendent or designee will create procedures to efficiently address community member questions or concerns and to provide for an adequate review of the materials, if necessary.

**PUBLIC QUESTIONS, COMMENTS OR CONCERNS REGARDING DISTRICT
INSTRUCTIONAL/MEDIA/LIBRARY MATERIALS**
(Answering Questions/Concerns)

It is necessary to have an orderly procedure that will assure a fair hearing to those who have objections and that will provide for a thorough investigation of disputed materials. The process described below is intended to assure that carefully considered judgments are made in response to criticism or objections.

1. All complaints to staff members are reported immediately to the building principal involved, whether they come by telephone, letter or by personal conference.
2. If the citizen further registers the complaint, he or she will be given a copy of the *Request for Reconsideration of Materials* form, which must be completed and returned to the building principal. The item under consideration must be returned to the building principal with the completed form.
3. Materials subject to the complaint are not removed from use pending committee study and final action by the Board.
4. The building principal arranges a review committee consisting of the librarian, teacher, himself/herself, patron of the district and, if necessary, a district administrator.
5. The committee reviews the material and returns a written report of its finding to the building principal. The committee may recommend that the questioned materials be:
 - Retained without restriction.
 - Retained with restriction.
 - Removed.
6. The building principal reports the recommendation of the review committee to the complainant.
7. The complainant, if not satisfied, may appeal the decision in writing to the superintendent.
8. In case of an appeal, the superintendent reports the recommendation of the review committee and the written appeal to the Board of Education. The Board of Education's decision will be final.
9. The decision of the Board is then reported to the principal and other appropriate professional personnel and then to the complainant. The principal shall then instruct the teacher/librarian to carry out the recommendation of the Board of Education.

Dear Mrs. Hullinger,

At the April regular board of education meeting we listened to your concerns about a book read by middle school students. The book was incorporated into the communication arts curriculum, after the teacher learned about the piece of literature at a state meeting entitled the Write to Learn Conference. The book is one that encourages young people to read. The intent of the author was to depict real life drama. He wanted young people to know that no matter how bad a situation may appear adult help is there for the asking.

The board of education's role is to ensure that all students of our school district are given a quality education. We also realize that from time to time parents will disagree with the curriculum; however, we still have to evaluate the situation in regard to the whole student body, not just one student.

Our board of education currently subscribes to Missouri School Board Association policies, which are written by their staff of professionals and attorneys. Along with the policies are procedures and forms. We re-adopted the policy September 15, 2005 concerning instructional/media/library materials. However, we needed the forms and procedures to make the process complete. We adopted the procedures and forms at the April 21, 2009 meeting. They tabled your request so that you could complete the questionnaire and return it for committee consideration.

All future concerns can be dealt with in a timelier manner. We understand and respect your request to remove the book in question from our middle school curriculum. Parents remain empowered with the ability to request their child read another book selection.

Thanks again for your patience in resolving this matter. We appreciate and respect parents who are involved in their child's education.

Professionally,

Bill Lewis
Superintendent

INSTRUCTIONAL SERVICES**Policy 6241
(Regulation 6241)
(Form 6241)****Instruction****Challenged Materials**

The Board has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accord with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. Books, or other instructional or media materials of sound factual authority, shall not be prescribed, nor removed from library shelves or classrooms on the basis of partisan or doctrinal approval or disapproval. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and nonprint materials. Despite the care taken to select those materials deemed to be educationally useful, occasional objections to the selection of instructional materials may be made by the public. However, the principles of academic freedom and the freedom to read must be defended, rather than the materials.

If a challenge is made, it should be properly channeled through guidelines and procedures established by the Board.

INSTRUCTIONAL SERVICES**Regulation 6241**
(Form 6241)**Instruction****Challenged Materials**

On occasion, honest differences of opinion may arise about books or materials used in the public schools. In order to handle questions that might arise in an impartial and orderly manner, the following procedures shall be followed:

1. All complaints shall be reported immediately to the building principal involved, whether these come by telephone, letter, or personal conference.
2. The person making the complaint shall receive the form "Review of Instructional Materials." A copy of this form may be picked up in the administrator's office.
3. This form must be completed and returned by the person making the complaint.
4. Media being questioned will be removed from use, pending committee study and final action by the Board of Education, unless the material questioned is a basic text.
5. The Superintendent of Schools shall, within fifteen (15) days of receipt of the written request, appoint a review committee of nine people. The committee shall consist of the administrator of the building involved, three teachers, a member of the Board of Education, and four lay persons. The administrator shall serve as secretary.
6. The classroom teachers appointed shall be represented by the grade level or subject area where the media is used, another grade level or subject area, and a librarian.
7. The four lay persons appointed shall be selected from a list of eight people recommended to the Superintendent by the president of the Board of Education. Two of the four persons appointed must be parents/guardians of children in the schools.
8. Within twenty (20) days of the appointment of the committee, the committee shall meet, review the written request for reconsideration, read the questioned materials, evaluate, and prepare a written report of its findings and recommendations to the Superintendent of Schools.
9. The committee may recommend that the questioned materials be:
 - a. Retained without restriction;
 - b. Retained with restriction; or
 - c. Not retained.

10. The Superintendent shall, at the next appointed meeting of the Board of Education, report the recommendations of the Review Committee to the Board of Education. The decision of the Board will be final.
11. The decision of the Board shall be reported to the principal of the school, to the complainant, and to other appropriate professional personnel on the next school day. The principal shall see that the decision of the Board is carried out.
12. The librarian responsible for that school shall keep on file all pertinent information concerning the questioned materials or any books or materials likely to be questioned.
